

XLink

Cellular Bluetooth Gateway

Use Your Home Phone as Your Cellular Phone

The XLINK™ connects your *Bluetooth* enabled cellular phone with your standard desktop phone, allowing you to use your regular home or office telephone as a cellular multi-line phone system. All you need is a *Bluetooth* enabled cell phone, and the XLink will take care of the rest.

XLink ITC-BT Features:

- XLINK™ integrated *Bluetooth* device provides a wireless connection to your *Bluetooth* enabled cellular phone (no external cables or modules required)
- Make and receive cell phone calls using XLink with normal wireline cordless or corded telephones
- Get better reception by docking your cell phone in your "hot spot" for strongest signal and talk anywhere in your home
- Use local number portability to move your land line number to a cell phone and keep using your land line phones
- Have the convenience and audio quality of a full-sized handset, speakerphone or headset for extended calls
- Use the free unlimited nights, weekends and mobile to mobile calling plans to their fullest while fully utilizing unused peak minutes
